

STATEMENT OF PURPOSE

RS20820

The Public Works Contractor License and Building Code Board members prefer to be compensated in the form of a fifty dollar (\$50) per day honorarium in lieu of the fifty dollar (\$50) per day salary they currently receive to perform Board functions. Amendment to Sections 39-4106(3) and 54-1908, Idaho Code, would merely adopt a different paragraph of Section 59-509, Idaho Code, providing for an honorarium in lieu of a salary. This change in compensation will adjust the Board members' eligibility and obligations with regard to PERSI participation. It will also bring the nature of the Board members compensation into line with that of the other boards operating under the Division of Building Safety.

FISCAL NOTE

No adverse impact.
